

**NEWARK'S SILENT
(FEMALE) MAJORITY
NEED MORE OF THEIR "SISTERS"
ON THE CITY COUNCIL**

- Women are 60% of the total city population. . . . but only 11% of the governing body.
- Eight out of every ten women are single heads of households. . . . and receive little or no family/child support.
- Women and children are most likely to be victims of robbery, rape and incest. . . . because they lack social and recreational neighborhood outlets
- Women and female teenagers are the real victims of poverty. . . . they are paid less than men doing the same job and often limited to "women's work."
- Many women cannot work outside the home. . . . because the city has a shortage of affordable day care centers in all neighborhoods.
- Older women and children are hardest hit by. . . .lack of education, prejudice because of age, inadequate housing, federal and state cutbacks.

*As Councilwoman Mildred Crump will address
these issues and help to solve other city problems
